

Even those who are not confident in their physical strength can enjoy this activity, thanks to the power assist of e-bikes. The trip will start with experiencing the nature of Hachimantai, including the Meiji Centennial Memorial Park, a superb meadow, and the Mt Iwate Yakehashiri Lava Flow. We will have Italian cuisine for lunch, prepared with the best ingredients of Hachimantai. In the afternoon, we will enjoy the autumn leaves at Matsukawa Keikoku, followed with a visit to "Akatsuki Brewery", in Kanazawa Shimizu, that produces craft beer, a local Hachimantai brand, and learn about their commitment to organic beer, finishing the tour with a visit to a farm that uses geothermal energy.
